# PageCraft test document

This file has a page for each feature. Open it in PageCraft and try the steps below. Nothing you do is uploaded anywhere.

## Page 2: contract (edit the PDF itself)

- Press `E` and click the name **Mohammed Ali**. Change it to your own name and press Esc. The rest of the line moves along.
- Change the salary 12,500 to another amount, or clear a line to delete it.
- Click the photo to move or resize it, then click **Crop** in the side panel and crop around the sun.
- Sign the agreement: press `S`, draw a signature, and click on the signature line.

## Pages 3 and 4: scans (OCR)

- These pages are pictures, so there is no text yet. Open **Document → Recognize text (OCR)**, choose English + Arabic, and run it on all pages.
- Then press `E` on page 3 and fix the invoice total. Press `Ctrl+F` and search for "invoice".

## Page 5: review (comments)

- This page already has comments from another app. Open **Comments** in the top bar to see them.
- Press `U`, drag across a sentence, and highlight it with a note. Press `N` to add a sticky note.
- Click **Export notes to CSV** and open the file in Excel.

## Anywhere

- Reorder pages by dragging thumbnails, rotate or duplicate a page, add a watermark or page numbers from the Document menu.
- Click **Save PDF** and open the result in another PDF reader to check every change.

# Project Review

Prepared by the operations team, November 2026

## Summary

The warehouse upgrade finished two weeks ahead of the deadline and 6% under budget. Delivery times dropped from four days to two days on average across Cairo and Alexandria.

Customer complaints about late orders fell by 38% compared with the same quarter last year. The new tracking system was the main reason, ~~together with the extra evening shift~~.

## Open issues

The cold-storage room still needs a backup generator. The supplier has not confirmed a delivery date, so this item may miss the January deadline.

Staff training on the new scanners is only 70% complete. Remaining sessions are planned for the first week of December.

## Next steps

Approve the generator purchase, finish scanner training, and start the same upgrade in the Giza warehouse in February. A final report will follow after the next quarter.
